

April Adventures

Here we are in the last quarter of school! Fourth quarter is the most important part of the school year. We take everything we've learned and create the perfect ending to a great time in class.

History class is where things are really hopping! We will soon begin our Famous Wisconsinite projects and look forward to presentations on Friday, May 12. Letters with project information will come home soon. We would enjoy having visitors come and see the presentations!

We continue to move forward in reading class. There are six units in our reading series, and we are currently reading selections from Unit 5. All scores for writing assignments will be recorded under the writing category. Please continue to review selection vocabulary. The new words are getting harder as we head into the last stretch of the race. Please get a jump on your AR reading for fourth quarter.

The fourth graders remember their Lenten promises to be better people and more like Jesus. Students talk about the sacrifices they are making to be present for others in their lives.

Fourth graders are responsible for the all school Mass on Thursday, April 6. Church begins at 8:15. Everyone is welcome to join our class.

I can barely believe school is almost over. We are all looking forward to warmer days.

*Run between the raindrops,
Ms. Updegraff
