

Mrs. Gordon's K5 Newsletter for April 2017

Easter blessings everyone! The students have been working hard on the Lenten disciplines of prayer and sacrifice. During Lent we began going to Mass every Thursday morning. We also say an extra prayer each morning before recess. We are now ready to celebrate the Alleluia of Easter! I hope you enjoy the Easter break with your child!

Here is what we are doing in our classroom this month.

Science: As we study weather and the planet earth, the students will explore wind, moving air with strength and direction. They will experiment with how things move. They will also observe that rocks come in many different shapes, colors, and sizes. We will also use binoculars to look at signs of spring.

Social Studies: As we study the planet earth, the students will work in small groups to conduct experiments with wind. They will also work in groups to weigh and measure rocks that they find.

Math: We will represent, count, and write the numbers 20 and beyond. We will identify and describe three-dimensional shapes. We will also describe and compare measurable attributes.

Religion: The students will recognize Easter as a miracle and a time of rebirth for the world.

Reading: The new words for this month are: got, fix, came, went, sun, made, down, up, good, bad. The letters we will study are: Vv, Zz, Yy,

Special events:

-Thursday, April 13 - Holy Thursday, 11:30 dismissal.

-Friday, April 14 - Good Friday, no School.
