

## Mrs. Gordon's K5 Newsletter for November 2017.

Here is what we will be doing this month in K5:

- **Science:** At a science center the students will learn about magnets by experimenting with them. They will also learn about the foods that the early settlers ate and compare their foods to what we eat today
- **Social Studies:** We will use the story of the first Thanksgiving to distinguish between past, present, and future. In addition, the story will help us to develop an awareness of different cultures.
- **Math:** We will model and compare the numbers 1 to 10.
- **Religion:** We will learn about several saints and learn that saints are people who have died and are now happy with God. We will also express thankfulness for God's love through the story of the first Thanksgiving.
- **Reading:** We will learn the sounds for the letters S, P, C and I. We will learn the high frequency words: and, mom, dad, on, no, yes, God, you, me, he, we.

### Special events:

- Friday, Nov. 3 – 11:30 dismissal, end of first quarter.
- Friday, Nov. 10 – free dress for no tardies in the first quarter.
- Tuesday, Nov. 14 – Family Lunch at 11:15.
